Soft Source, Inc., spot on the Stars II team adds to its growing list of federal procurement contracts, that include DOE's SRNS Professional Staff Augmentation, DOE's 8(a) set aside for non-professional's Category Staff Augmentation Contract, USARMY Sole Source 8(a) contract W91238C0023 for engineering studies and remediation services at Military Ocean Terminal Concord, California.

### About GSA Stars II GWAC

STARS-II, \$10 billion, 10-year IDIQ, is a follow up to the GSA's successful STARS-I contract, which concluded November 2011. STARS II gives federal agencies access to what the GSA describes as "an elite group of small 8(a) information technology businesses," allowing agencies to ensure they receive best-in-class service through an established contract vehicle rather than open-market methods, saving time and money.

The contract allows for directed task orders up to \$4 million each for all federal agencies. It also features a lower user access fee (0.75 percent), built into the contractor's ceiling prices.
