

Stephanie R. Katz, CPEC, MCC

Stephanie coaches CEOs, executives, managers, and professionals to develop their leadership skills, enrich their lives, and express their unique talents. She does this by forming partnerships with her clients that help them develop the insights, skills, and confidence they need to create lasting changes in the way they understand themselves and the way they work with others. Clients learn to attain their goals and create fulfilling and balanced lives. Clients leave the program with the insights and skills that fundamentally change their behavior so that they are continuously able to create positive changes in their lives and their organizations.

She brings to her coaching partnerships the benefits of 20 years of leadership experience in professional services (law firms and consulting firms), technology, and financial services companies. Her approach combines this first-hand knowledge of the joys and challenges of leadership with her love of nature. In addition to her practical experience, Stephanie has studied coaching and leadership extensively.

Development Dynamics Coaching and Consulting Managing Partner

- Executive coach, consultant and facilitator, Stephanie founded Development Dynamics, a management coaching and consulting firm that specializes in executive development.
- Stephanie focuses on coaching leaders who are expanding or reshaping their roles.
- She works with clients to polish their executive presence, communicate with greater impact, build stronger relationships, and manage competing priorities.
- Stephanie is known for her ability to listen compassionately to her client, cut through peripheral issues and get to the heart of the matter, challenge clients to reframe, reflect and take new actions that previously seemed unattainable.
- Her pragmatic approach supports individuals as they learn about themselves and develop the competencies necessary to address new leadership challenges. Clients increase their awareness of their impact on others; learn to capitalize on their strengths and to remove obstacles to their continued development.
- Her approach enables clients to connect insight with action to generate powerful changes that go beyond the scope of the coaching and out-live the duration of the coaching program.

Educational Qualifications

- She is a certified professional effectiveness coach and holds a master's degree in organizational management. She is a qualified user of the Myers Briggs Type Indicator.
- She is Master Certified Coach from International Coach Federation (ICF)
